

EXIGENCE®

Medical management for urgent and immediate care

Exigence provides convenient and cost-effective ambulatory care options that are in demand by patients, payers and health systems. We offer more than two decades of experience designing, staffing and managing urgent care centers, freestanding emergency departments and occupational medicine programs.

Exigence provides hospitals and health systems:

- Turn-key solutions for healthcare systems' ambulatory care strategy
- Scalable models, from large freestanding emergency departments to small, convenient care centers to multispecialty medical office complexes
- Site selection and facility design
- Recruiting and retention for clinical and non-clinical staff
- Marketing strategy and implementation resulting in increased volumes
- Dedicated ambulatory care billing operation, resulting in the accurate coding, billing and collections
